AMTECH DENTAL
LABORATORY INC

INTRODUCTION

AMTECH Dental Laboratory Inc. is a corporation registered with the Securities and Exchange Commission (SEC) on February 23, 2019. Since its founding, the company has grown into one of the most dynamic and innovative dental laboratories in the Philippines.

Our core business is the design and manufacture of high-quality dental prosthetics and digital dental solutions. In addition, AMTECH is authorized to import, export, distribute, and supply a wide range of dental materials, equipment, and accessories necessary for advanced laboratory operations.

Today, AMTECH stands as a trusted partner to a powerful client base of dentists, clinics, and specialists across Metro Manila and beyond. We are also actively engaging with laboratories nationwide, particularly in the area of dental metal materials, reinforcing our reputation as a forward-thinking leader ready to represent global brands in the Philippine market.

MATERIALS WE WORK WITH

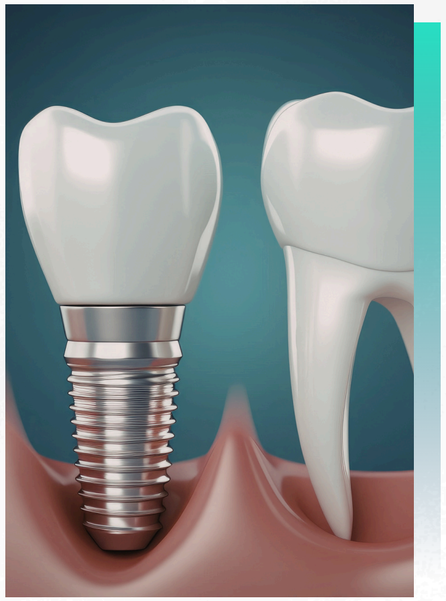

01 **E.MAX :** Lithium disilicate glass ceramic, prized for its strength and lifelike translucency, ideal for veneers and anterior restorations.

02 **ZIRCONIA :** High-strength, all-ceramic material offering exceptional durability for crowns, bridges, and full-arch restorations.

03 **PFM (Porcelain Fused to Metal) :** Combines the strength of a metal substructure with the natural appearance of porcelain, a trusted choice for long-span bridges and high-load areas.

AMTECH DENTAL

PREMIUM CROWN & BRIDGE SOLUTIONS

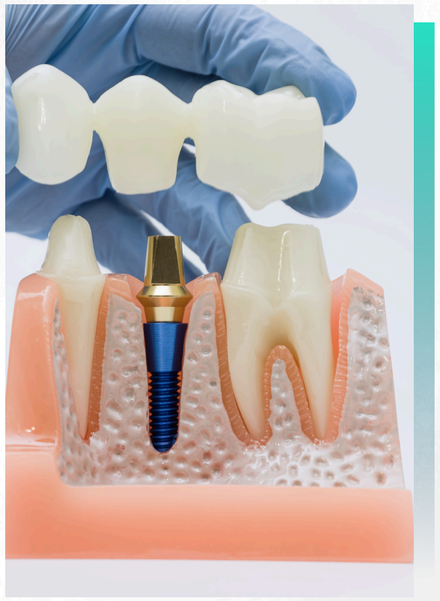

PRECISION. AESTHETICS. EXCELLENCE.

AMTECH Dental Laboratory Inc. delivers premium crown, bridge, and veneer solutions built on three trusted material platforms E.max, Zirconia, and PFM giving dental professionals the flexibility to match the right material to every clinical case.

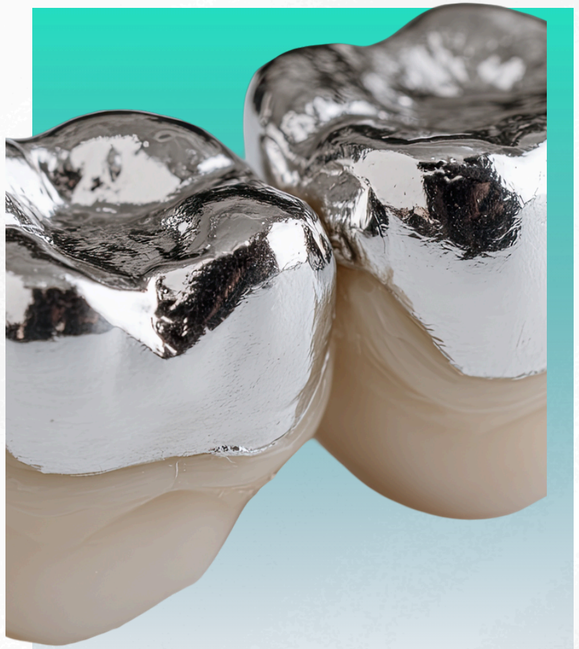

Zirconia Fixed Bridges & Veneers — Strong. Natural. Beautiful. Built to Last.

- Exceptional Strength
- Natural Aesthetics
- Stain Resistant
- Biocompatible: Metal-free and gentle on gums
- Long-Lasting Solution

ANATOMY OF A FULL METAL CROWN

FULL METAL CROWN — PRECISION IN EVERY DETAIL

- Central Fossa: The main pit or depression at the center of the chewing surface.
- Marginal Ridge:The raised borders on the chewing surface forming the mesial and distal edges of the tooth.
- Cusps: Pointed or rounded elevations that aid in grinding and tearing food.
- Occlusal Surface:The chewing surface of the crown that contacts the opposing teeth.
- Axial Wall: The sides of the crown that follow the contour of the prepared tooth.
- Cervical Margin: The finish line of the crown that rests on the prepared tooth at the gumline.

FUTURE VISION

AMTECH is on a clear path of expansion, with a bold vision to dominate the Philippine dental laboratory market. We are continuously investing in advanced technologies such as CAD/CAM systems, digital impressions, and 3D solutions to better serve our clients.

We are also building a stronger digital footprint, maintaining a powerful presence across social media to connect, educate, and inspire dental professionals. By showcasing our expertise and client success stories, we are creating stronger ties with the dental community nationwide.

Looking forward, AMTECH aims to represent global dental product lines in the Philippines, giving dentists across the country access to world-class materials and innovations.

LABORATORY INC

KEY CLIENTS

Our client base includes a wide spectrum of trusted partners:

01 Dental Clinics & Practices:
From small independent clinics to large multi-branch networks.

02 Dental Specialists:
Prosthodontists, orthodontists, and oral surgeons who demand precision and reliability.

03 Hospitals & Educational Institutions:
Dental departments and schools that require advanced laboratory support.

04 Emerging Dental Centers:
Cosmetic and restorative dentistry chains expanding across the country.

This strong and growing client portfolio highlights AMTECH's role as a dependable partner in the Philippine dental industry.

EXPANSION ACROSS THE PHILIPPINES

AMTECH is rapidly growing beyond Metro Manila with the goal of establishing a nationwide presence. We are developing regional partnerships and distribution channels in Luzon, Visayas, and Mindanao to serve a broader client base more efficiently.

Our collaboration with local laboratories specializing in dental metal materials strengthens our capabilities and ensures consistent quality nationwide.

This expansion strategy positions AMTECH to not only meet but exceed the needs of dentists and clinics across the country, making us the partner of choice for dental professionals seeking reliability, innovation, and excellence.
